THANK YOU EXHIBITORS FOR YOUR IMPLICIT FAITH IN FAMDENT SHOWS OVER THE YEARS.

It was indeed very heartening to hear extremely positive feedback from both our last shows – Mumbai and Hyderabad. Some comments from our esteemed exhibitors for both these shows (out of over 50 feedback).

The Famdent Show Mumbai was an outstanding event for our company, where most visitors to our booth were serious buyers.

We generated a business of over 1 Cr on the first day at Famdent Show Hyderabad, despite not having everything on display.

Our company underestimated the likely number of visitors and were short of staff and space and were unable to cope with the large turn out. Congratulations to Famdent for organizing such a fantastic show in Hyderabad. In the next event we will surely book an island.

International Exhibitor – I have attended several Dental Exhibitions in India. This was my very first to a Famdent Show in Mumbai. I was pleasantly surprised not only with the knowledgeable and large number of visitors – but also the positive energy in the entire show. From now on my annual visit to Famdent Show Mumbai is confirmed.

FAMDENT EXCELLENCE IN DENTISTRY AWARDS

The Famdent Excellence in Dentistry Awards recognize the highest standards of excellence in the Dental profession, honoring individuals in respective fields for their outstanding achievement. It aims to honor stalwarts in Dentistry and further promote the excellence of Dentistry in India.

These awards are instrumental for motivating other Dentists to strive for greater heights and to contribute more actively towards promoting the Profession's intellectual, creative and ethical value systems.

It is not easy to win the Famdent Excellence in Dentistry Award given the rigorous judging process; making the Winners true Stalwarts in their respective categories.

DENTAL INDUSTRY IN INDIA

Dentistry is one of the fastest growing Healthcare industry in India. Current estimates put the number of registered Dentists at over 2,00,000 excluding non-registered Dentists who are mainly based in rural areas. Coupled this with over 5000 dental laboratories and 325 dental institutes, the Indian dental market is vast and it is predicted that India will be one of the largest single country markets for dental products and materials. Every year approx. 15,000 new Dentists are added in India. Dentistry in India is expected grow 20% annually - mainly due to following factors:

- Increased oral care awareness fueled by oine and online media.
- Growth in Dental Tourism - Due to the huge professional fees dierece, this is an extremely lucrative revenue model for Dental Clinics.
- Increase in market size due to proliferation on Chains of Dental Clinics including reputed names like Apollo Group, Wockhardt and Fortis Healthcare.
- Reduced Import duties and acceleration in Dental product imports.
- Dental Insurance - the next few years will see a major shift from fee paying patients to insurance ones.

The overall image of India in the world economy coupled with specific upheaval in the Dental segment, promises to double the growth in Dentistry in the next 5 years.
